2019 Tax Table

See the instructions for line 12a to see if you must use the Tax Table below to figure your tax.

Example. Mr. and Mrs. Brown are filing a joint return. Their taxable income on Form 1040, line 11b, is \$25,300. First, they find the \$25,300–25,350 taxable income line. Next, they find the column for married filing jointly and read down the column. The amount shown where the taxable income line and filing status column meet is \$2,651. This is the tax amount they should enter in the entry space on Form 1040, line 12a.

2019 Earned Income Credit (EIC) Table Caution. This is not a tax table.

1. To find your credit, read down the "At least - But less than" columns and find the line that includes the amount you were told to look up from your EIC Worksheet.

2. Then, go to the column that includes your filing status and the number of qualifying children you have. Enter the credit from that column on your EIC Worksheet.

Example. If your filing status is single, you have one qualifying child, and the amount you are looking up from your EIC Worksheet is \$2,455, you would enter \$842.
